

I couldn't wait to share my testimony!

For weeks my legs had been hurting and getting worse! The past couple of days they were so weak I could barely walk or stand and climbing stairs became soOO difficult!!! I had already emptied a bottle of Ibuprofen and was burning the element out of a heating pad I'm sure!

Friday I was able to find my condition on the internet. The page said that although there may not be lower back pain the symptoms pointed toward a bulged or herniated disc and to see a doctor immediately to avoid permanent damage. (From past experiences with chiropractors I knew that Treatments could range from \$500 to \$5000 or more no doubt!)

I made it through our spring conference on Friday/Saturday (which was awesome!!!) and was in a lot of discomfort on Sunday! The Lord moved on Pastor Thornton after his message Sunday, ("HE WON'T LEAVE YOU LIKE THAT, II Kings 4:1-7(7 is the number of completion)) to call a prayer line for those that needed a miracle within 24 hours, one week, and even 30 days! I wanted to get into the line right away, but First ladies are a little hesitant to see to their own needs sometimes. But my need caused me to press pass this!!

That evening I could still barely get around. I was uncomfortable most of the night and when I woke up at 3:00 am I was still in pain but when I got up this morning I felt so much better!!!! My feet didn't ache!!! There was no pain in my calves! No pain in my left knee and the swelling has gone down! It no longer felt like I was walking with logs instead of legs!!! GLORY!!! My muscles keep tensing up expecting the pain but it's not there! Glory to God!! I'm still a little weak but the the 24 hours is not even up yet!!! And I am praising God for my Healing!!!

Who is there like our God!!!!

Sincerely First Lady Thornton
